Testimonial from Expectant Mother

"I never thought it could happen to me, but I became pregnant at the age of 18. I felt terrified and helpless as I began to think about my future.

I decided to visit Catholic Charities, hoping they could help me find someone to adopt this baby. The social workers provided me with information for adoption as well as for parenting. In fact, there was no pressure to place the child for adoption. They seemed more concerned about my emotional and physical wellness, while helping me to make the right decision.

With the support of Catholic Charities, I was able to make the best choice for my child and myself."
