

Hello!!

Thank you for taking time to review our profile... a peek at our life! We realize that there is nothing that we can say to make this decision easier, but we can promise to provide a wonderful life for your child – full of love, growth, affection, understanding and compassion.

- Mat & Sammie

Our Story

We met in February of 2020 after being introduced on a blind date by Sammie's best friend, who just happened to be Mat's crop insurance agent.

We got engaged 5 months later and were married April 2, 2022. Sometimes, someone comes into your life unexpectedly and changes your life forever!

Why Adoption

We knew immediately from the beginning of “us” that we wanted have a family together. After an unexpected journey of medical procedures, we were diagnosed with unexplained infertility. Our journey has led us right to the possibility of adoption.

“Little souls find their way to you, whether they are from your womb or someone else’s”

- Sheryl Crow

Mat

I grew up in West Central Wisconsin with my parents and a younger brother. Growing up, I spent a lot of time at my grandparents' house so that I could farm with my grandpa and uncle. I really enjoyed being outside, working with cattle, learning how to grow crops, building and fixing things on my own. I knew from a young age that I wanted to farm for a living, so after a few years of helping out on local farms and working with my uncle, I started farming on my own. The magic of farming is seeing cattle and crops grow on their own as a result of my efforts.

Sammie

I grew up on a dairy farm in West Central Wisconsin with my parents and a younger brother.

Being able to grow up on the family farm meant that we were able to spend most days together, even grandma was still involved. As a child, I didn't know how great those days were—being outside and caring for our animals were some of my favorites! I attended college majoring in Management.

After 22 years in the Human Resource field, I started working full-time with Mat on our farm. I'm back to my roots; it's been a great change. I remember growing up when my parents were always home. I look forward to being that presence for a child. I've always wanted to be a mom... even telling the audience at a pageant when I was six that I wanted to be a mom when I grew up

Mat is a very caring, kind and hard working person. He makes each day feel like the best yet. A lot of people only dream of finding unconditional love like this in their lifetime. I can always count on him for support and he will always be there no matter what happens.

-*Sammie*

Sammie is the most kind, compassionate and caring person I have ever met. She will go above and beyond to help anyone. Sometimes, I even think it's impossible and she finds a way to make it happen. The love and affection that she shows for her nieces is indescribable. She has always wanted to be a mother and I am 100% certain she would be the best.

-*Mat*

Favorite Things

We spend a lot of time together — whether it's working or having fun with our family and friends. Mat enjoys tinkering in the shop and auctioning. Sammie loves to thrift, read and cook. There's always something to do in our area — swimming, kayaking, library events, festivals, orchards, skiing and fishing. Our favorite hobby, is attending our nieces' sporting events—volleyball, cross country, basketball, softball and track. It keeps us busy!

One of our favorite weekends of the summer is attending Sammie's hometown fair. There is so much for families to enjoy there—carnival, run/walk, tractor pull, music and parade to name a few activities. Sammie has been involved in coordinating the run/walk to save money for new playground equipment at a park in town, which was purchased last summer

In addition to our sweet corn patch, we started planting a garden together. We have learned how to can and freeze our vegetables so we can enjoy them all year around. We are making plans to have a roadside stand next summer.

Our Home

We have a 3 bedroom home on a farm in West Central Wisconsin. We were both farm kids and enjoy what it takes to make our farm run. One day we work with our cattle, the next day we might maintain or repair equipment and the following day we are getting ready for our next “season”. Every day is different — it keeps us on our toes.

We live 5 miles from the nearest city. There’s always something to do there — water park (indoor and outdoor), shopping, a variety of restaurants, library events, festivals and fairs. Our area also offers numerous outdoor activities too — skiing, fishing, kayaking, orchards and snowmobiling. We have neighbor kids and cousins just down the road that we see on a regular basis — fun is just a phone call away.

Our school district has a small town feel that is full of opportunities for students. We are sure there is no better place to raise a child than here, where the school and the community work together to encourage growth. Our school district is highly rated among other districts in the State of Wisconsin.

We both are hardworking and honest people. We feel that our values and morals make us successful on our farm and life in general. We look forward to sharing our experiences to help build a strong foundation for your child's future.

Thank
You!

We really appreciate you taking the time to look at our profile. Both of us, along with our families and friends, are excited to welcome a child into our life. We are committed to creating a relationship that works best for all of us to help build your child's story. We look forward to the possibility of meeting you and answering any questions you have.
